- You will need your library card number and a PIN in order to login.
- If you don't have a PIN, don't worry—this tutorial will show you what you need to do.

Next time, you'll be able to log in using your username. If you ever want to change your username, log in and repeat steps 1-3.

Troubleshooting

If you are having trouble logging in, try checking for these common issues:

- Make sure you are entering your library card number without any spaces or dashes.
- Try leaving the PIN field blank and clicking "submit." You may need to set a PIN for your account.
- You can reset your PIN by clicking on the "Forgot Your PIN?" link at the bottom of the page.
- Have you replaced your library card recently? When cards are replaced, we remove the old card number from the account. If you are using a card that was previously lost, it is likely not in our system. You will need the new card number in order to log in.
- Is your card still current? To maintain our patron database, we regularly remove records that have been expired for two years. If you haven't visited us in a while, your card may have fallen out of the system and will need to be added back in.
- If you are still having difficulty, please feel free to contact the library for further assistance.
